Office of Legislative Liaison

SUBJECT: SSCI Staff Questions Concerning  
Prepublication Review

1. Attached are a number of questions which have been submitted by Peter Sullivan, Minority Staff Counsel for the Senate Select Committee on Intelligence, concerning prepublication review and the various standard non-disclosure agreements utilized by the Executive Branch. These questions concern the number of individuals who hold SCI clearances within the Intelligence Community, a requested history and comparison of the various non-disclosure agreements which have been drafted by or are in use at the Executive Branch, a request for the leaks testimony recently provided by John Stein before the Joint House Committee chaired by Representatives Edwards and Schroeder, and a requested review and critique of Peter Sullivan's own interpretation of the differences between the new SCI form and the old Form 4193.

2. Mr. Sullivan is asking these questions in order to obtain a better understanding as to the evolution of the present non-disclosure agreement utilized by the Executive Branch so that some sort of accommodation or compromise with respect to the revision of Form 4193 can be reached. I would appreciate your assistance in responding to the above questions at your earliest convenience.
